MEET YOUR PHOTOGRAPHER

Hi I'm Jasmine! I'm a painter turned photographer with a degree in Fine Arts from AUA. I started my photography business in 2017 capturing families, and fell in love with weddings in the winter of 2018. I've captured weddings from Calgary all the way to Tokyo.

My grandfather taught photography at Sheridan & Humber College so I've always understood the value of a great photo. I remember seeing my favourite band, and was so caught up in trying to take a good photo that I missed the entire concert. I will capture all your special moments so you can be fully present & trust me to do the rest.

OZ

THESE AREN'T YOUR SEARS PORTRAITS

Film inspired, the meeting point of candid & posed - my aim is to capture your story with a heavy seasoning of nostalgia. My approach is to guide you into flattering poses while managing to capture real interactions between you and your partner. For the most part, my work remains candid and organic. Your day will involve a hands-on approach during specific moments: getting ready, formal portraits, and family portraits. The remainder of the day will be documented naturally as it unfolds.

Frequently Asked

HOW LONG BEFORE I RECEIVE MY FULL WEDDING GALLERY?

My turn-around time is 2 to 4 months depending on the time of year, but you'll receive plenty of sneak-peeks before then.

CAN I HAVE THE RAW FILES?

I do not give RAW files as they are considered unfinished product. However, the only photos I exclude from your final gallery are duplicates, someone with their eyes closed, etc. I do not hold back images from your day.

WHO WILL BE YOUR SECOND SHOOTER?

I maintain a list of experienced second-shooters, most of which have their own wedding photography businesses. Second-shooters selected for your date are contingent upon their individual schedules.

CAN MY ENGAGEMENT SESSION BE PUT TOWARDS SOMETHING ELSE?

As the engagement session is a chance to connect before your wedding day, the discounted session cannot be used towards anything else. It is a great way for us to get to know each other, and to make you feel more comfortable about having me capture your special day.

DO YOU TAKE A SHOT LIST?

A lot of my inspiration comes from real moments and the scenery around me, or how you interact with your partner. Shot lists can sometimes limit that creativity. I am absolutely open to inspiration boards so I can capture the vibe you want, and will require a list of which family members you want photos with.
